

I would be really grateful if you could pass on the below information to students and parents within your school via email, newsletters, parent portals, school website or other forms of communication you use to share information with parents. The event is also available to teachers and careers advisors who would also like to attend.

### **Thales Apprenticeship Career Fair**

Thales is a global engineering and technology company, with 62,000 people worldwide and 6000 people based across our UK sites – [www.ukearlycareers.thalesgroup.com](http://www.ukearlycareers.thalesgroup.com).

This year we recruited 85 young people onto our UK apprenticeships; 40 of those positions were at our Crawley site on Manor Royal. We have opportunities across Advanced, Higher and Degree Level programmes within Engineering, Manufacturing and Business functions.

On Wednesday 13th December we will be launching our apprenticeship opportunities for September 2018 and would therefore like to invite students (year 12 and 13), parents/carers, teachers and careers advisors to attend a Thales open evening to learn more about our programmes. Hosted by our current apprentices this will be an opportunity to learn about Thales as a business, our 2018 opportunities and the application process for interested applicants.

We will be welcoming visitors at our Crawley site on Manor Royal on the 7th December 2017 and 18th January 2018 from 6pm - 8pm. Please follow the link for more information and register your attendance [https://www.eventbrite.com/e/thales-apprenticeship-careers-fair-tickets-38077596115?aff=utm\\_source%](https://www.eventbrite.com/e/thales-apprenticeship-careers-fair-tickets-38077596115?aff=utm_source%)

Parking will be made available along with refreshments.
